

DecorFlou® Fade

GRADIENT COLLECTION

Gradient acid etched glass with a geometrical decoration shading from completely etched to completely transparent.

DecorFlou® Fade was designed to meet both technical and aesthetic needs, for numerous applications wherever light and privacy are needed.

The gradient effect is created starting from an entirely etched surface, where a dense pattern of ovals slightly thins out till reaching full transparency.

OmniDecor confirms once again its vocation for design, converted into innovative textures for its decorative acid etched glass.

DECORATIVE GLASS

“ Glass with gradient etching ”

APPLICATIONS

SHOWERS

DOORS AND PARTITION WALLS

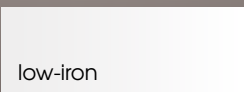

CONTRACT

FACADES AND BALUSTRADES

GLASS TINTS

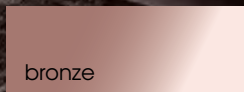

low-iron

clear

grey

bronze

The tints refer to the color of the float glass and are indicative. For the real tint please always refer to samples.

OmniDecor is renowned for the exclusive look and the high quality of its decorated flat glass. Unique of its kind, our decorative acid etched glass originates from a selective industrial etching process in which great attention is paid to detail. Constant research and attention to style trends are our major strength.

DecorFlou Fade

MATERIAL

Float glass with a gradient etching on one side.

- Float glass UNI EN 572-2 compliant
- Weight 2,5 kg/ sqm per 1 mm thickness

PROPERTIES

- High light transmission
- Gradual opacity
- Corrosion resistance (etched surface)
- Durability of the etched surface

FINGERPRINT-PROOF
(etched surface)

RECYCLABLE

SCRATCH-PROOF
(etched surface)

REGULATORY FRAMEWORK: Light transmission - EN 410 • Scratch resistance - UNI 9428 • Corrosion resistance (etched surface) - UNI ISO 9227 • Reaction to fire - EN 13501-1.

PROCESSING

Mechanical			Thermal		Finishing	
CUTTING	GRINDING	DRILLING	TOUGHENING	BENDING	LAMINATION	PAINTING
✓	✓	✓	✓	✓*	✓	✓

* The resistance of the etched surface during the high temperature process depends on the bending angle.

SIZES AND THICKNESSES

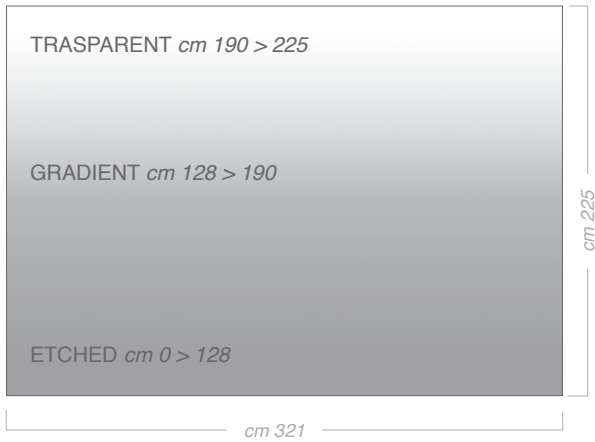

TINT	THICKNESS (mm)	SHEET SIZE	
		Height (cm)	Width (cm)
CLEAR LOW-IRON	3 / 4 / 5 / 6 / 8 / 10 / 12 / 15 / 19	225 / 240 / 255	321
GREY BRONZE	3 / 4 / 5 / 6 / 8 / 10	225 / 255	
LAMINATED* CLEAR / LOW-IRON / L GREY / BRONZE /	3 + 3 4 + 4 5 + 5	225 / 240 / 255	

* Laminated glass: single/double/triple plastics available, tinted interlayers available in grey and bronze options.

LAYOUT

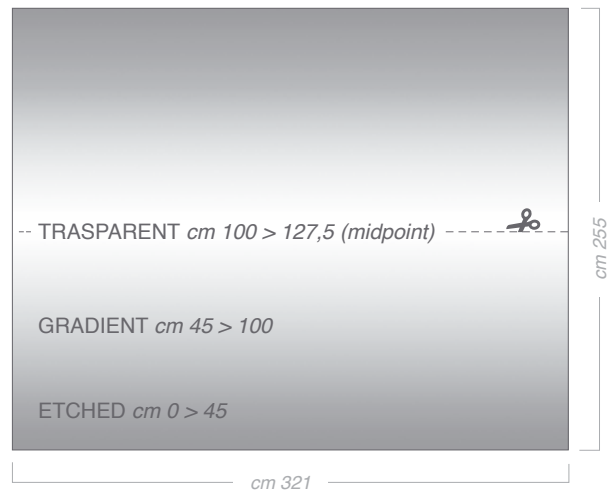

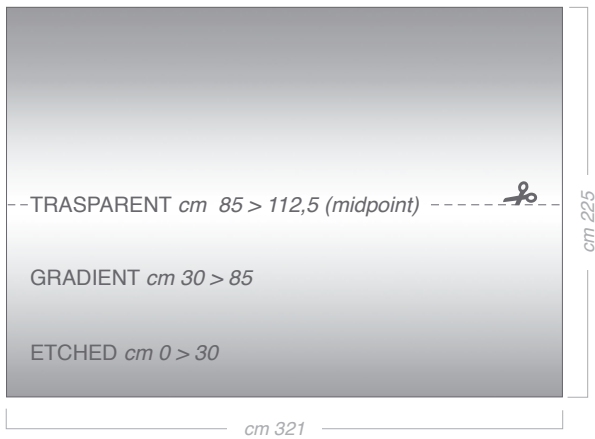

☰ Suggested gradient for SHOWERS ENCLOSURES and DOORS

Size of the glass sheet: cm 321 x 225 or cm 321 x 255

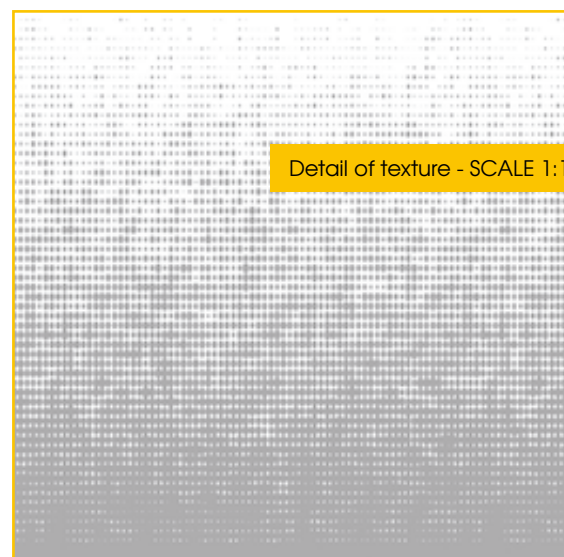

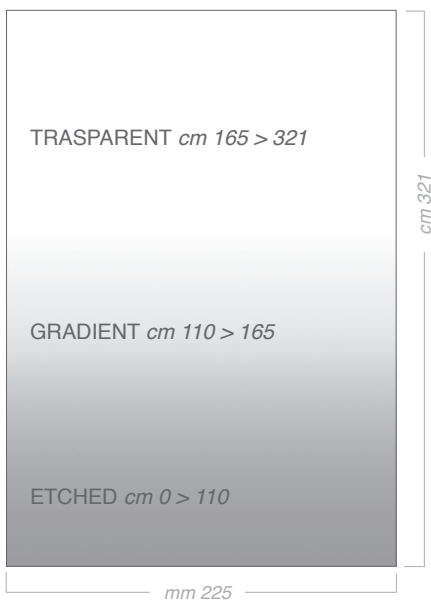

☰ Suggested gradient for BALUSTRADES and FACADES

Size of the glass sheet: cm 321 x 225 or cm 321 x 255

☰ Suggested gradient for PARTITION WALLS

Size of the glass sheet: cm 321 x 225
